## intelligent technical recruitment solutions

### energy

Atlans's energy division is able to provide a wide range of recruitment services to support the complex resource demands of the energy sector. The division is focused on the delivery of skilled resource to the following industry sectors:

- > Oil and Gas
- > Renewable Energies
- > Petrochemical
- > Decommissioning
- > Construction
- > Risk Management
- > Nuclear
- > Power/Generation
- > Research and Development
- > Waste Management
- > Consultancy
- > Health & Safety

The energy division is staffed by consultants selected from the energy market place who have real experience of the unique issues faced by companies looking to secure scarce skills in a highly competitive industry. The consultants are able to work with clients to develop the correct processes to best support their resource needs. They can also act as a trusted partner to minimise the commercial risk associated with failing to secure high quality technical resources needed to deliver bid and project deadlines successfully.

Atlans's energy division maintains an extensive candidate pool with a wide range of specialist skills available to support both decommissioning and development project activities within the energy sector.

The energy division can support the strategic and project specific needs of our clients, by working alongside them in addressing their resource planning and scheduling. The range of nuclear industry experienced personnel available from us include:

- > Project Managers
- > Engineers
- > Supervisors
- > QA Engineers
- > Project QA Support
- > Planning Engineers
- > Cost Engineers
- > Estimators
- > Craft Technicians
- > Commissioning
- > Quantity Surveyors
- > Plant Operators
- > Non Craft Support Services
- > Construction Engineers
- > Decommissioning Engineers
- > Safety Case Engineers
- > Work Package Engineers
- > Maintenance Engineers
- > Plant Engineers
- > Health Physics Staff
- > Design Engineers
- > Technical Authors
- > IT Support
- > CAD Operators
- > Draughtsmen
- > Process Engineers

Please contact us to discuss your specific needs in more detail or visit our website at [www.atlanrs.com](http://www.atlanrs.com)
